Forecast for Tuesday 26 Jan 2021

Weather: Dry for most of the night. Outbreaks of sleet or snow, with rain below 400m, spreads east across all parts early in the morning. Heavy snow and strong winds will bring blizzards for a time on the highest summits. Snow turning to rain at all elevations through the afternoon and becoming light and patchy.

Chance of cloud free mountain/hill tops above 600m: 80% overnight but becoming less than 10% in morning as rain or snow arrives.

Visibility: Clear overnight but extensive cloud will develop above 200 or 300m in the morning giving white out conditions over existing snow cover. Very poor visibility at most elevations through the day.
